

Team Evaluation Form

The purpose of this form is to give each team member a chance to anonymously rate the performance of their other team members. Although each team member’s contribution to the project may not necessarily be equal, each team member should contribute in some way to the project. As a minimum, each team member should participate in team meetings and should perform any assigned tasks (by the group). Note that more active team members should also try to distribute the work among other less active team members. A small portion of the each student’s team grade is based on this evaluation.

Please rate each team member (including yourself) using the table below.

Use the following rating system:

- 1 – Did no work on the project, missed most team meetings, etc
- 2 – Did very little work on the project, missed several team meetings
- 3 – Did an average amount of work on the project
- 4 – Did a significant amount of work on the project
- 5 – Very active on the project, contributed greatly to the team
