The college offers a number of Career Studies Certificate programs that are designed to provide individuals with job entry skills in a short period of time. These career studies programs will provide those individuals who are already employed new skills in specific occupational-technical fields. They also will prepare individuals for credentialing examinations. The programs have from nine to twenty-nine credits. In addition, the credits for most of the career studies programs can be applied to an associate in applied sciences degree program.

Call Tidewater Community College Information Center,
 (757) 822-1122, for information on these programs.
