

Finding Articles for Statistical or Scientific Study

- From the library home page <http://www.tcc.edu/lrc>, click on the **Indexes and Databases** link. Then click on the **full text databases** link.

- Select a database:

InfoTrac OneFile
Expanded Academic
Business and Company Resource Center
Health and Wellness Resource Center
OmniFile Full Text Select

- Type your subject in the keyword search option with the following words:

Statistics	Table(s)	Trends
Chart	Graph	Survey
Research	Data or Tabular Data	Confidence Interval
Methods	Figures	
Sample	Demographic	
Study	Projections	

- Search Examples

medical care and statistics and sample
education and sample and methods
gene therapy and research and methods
black holes and projections and data

- In the Gale databases (InfoTrac OneFile, Expanded Academic, Business and Company Resource Center, Health and Wellness Resource Center), you can limit your search to full text and refereed publications. In OmniFile Full Text Select, you can limit your search to full text and peer reviewed.
- Some other full text databases to search (can be found under Title list of database after click on the Use Indexes and Database link):

Computer Database
LexisNexis
Highwire
Oxford University Press
Cambridge University Press
American Chemical Society
Journals @ Ovid

- Use our subject guide on Statistics- <http://www.tcc.edu/lrc/guides/stats.htm>
