Tidewater Community College Payment Plan – Important Dates

*Payments are always processed on the 20th of each month unless it is a holiday or weekend. In these cases, payments are processed on the next business day.

Note: Changes to enrollment will not automatically change payment plan contract amounts. Any adjustments to a payment plan must be made by logging into the TMS payment plan via the [payment plan portal](#).

TMS will notify the school and the school will either approve or deny the adjustments based on the student's enrollment shown in SIS.

Adjustments must be completed before the adjustment deadline as indicated on the payment plan calendar above.

After the last day to increase payment plan contract amounts, the student is responsible for paying the college directly for any additional classes or those classes will be dropped.
