### Presentations and Proposals:

1. New career studies certificate: Electrified Powertrains Technician  
Program changes: AAS Automotive Technology and CSC Automotive Technician  
Course proposal: AUT 2XX Automotive Drivetrains

Bobby Rowe presented the proposal to combine the content of AUT 178 and AUT 251 into one new course, AUT 2XX Automotive Drivetrains. By combining two courses, students will remain eligible for financial aid credit requirements and allow for the addition of AUT 233 Hybrid Electrical Vehicles to the curriculum. AUT 2XX has a prerequisite of AUT 149.

The proposal was drafted at the request of Toyota as part of the T-TEN program and will eventually impact all automotive programs. These changes reduce financial costs to students, shorten the amount of time students are in classes, and allow the curriculum to cover current technology.

A new CSC: Electrified Powertrains Technician increases options for students needing credentials for employment.

- Motion to recommend approval of the new course, program changes, and new certificate as presented approved unanimously.

2. Program prioritization: Music

Marc Denison and Dean Phillips presented the program report for the AFA and CSC in Music. The committee provided feedback.
